

Privacy Policy

Your privacy is important to us. This Privacy Policy describes what information is collected by the myFHR™ Application and how it is used.

Information Collected by the myFHR™ Application

Each time you use the Application it automatically collects the following information:

- (1) The IP address you used to connect to our servers;
- (2) Information about the device you are using, including the operating system version, and device model;
- (3) Information about the application such as the application version;
- (4) Diagnostic information about the application, including any application errors or crashes; and
- (5) Log information about your session, such as the date, time and duration of your session, and the screen and areas of the application you have used or views that you have accessed.

Connection to Google Fit

The following provision only applies if you accept these terms and relates to your ability to share your information with Google Fit and your ability to have Google Fit send information back to the myFHR™ Application. In order for you to use this myFHR™ App with Google Fit, you must accept the terms of this Privacy Policy.

Google Fit is a service from Google which allows you to store certain fitness information in the cloud and on the device on which myFHR™ is loaded and share it with other apps and devices that are designed to work with Google Fit. You may enable sharing between the myFHR™ Application and Google Fit as well as choose which information is shared with Google Fit. You can also select which information from Google Fit is shared with the myFHR™ Application. **Please be aware that this information may not be accessible by your specific health providers. For specific health concerns please contact your care provider directly.**

Because the settings in Google Fit and the apps which work with Google Fit will affect how your information is used and disclosed, it is important that you review the privacy policies and settings of those applications. You can find more information about Google Fit your privacy settings at <https://www.google.com/fit/>.

Storage of your Information

The information collected by this myFHR™ App is securely stored on myFHR™ servers in the United States, or on servers owned by third party service providers that we contract with to securely store your information in the United States. No personal information is stored by this myFHR™ App. If you enable sharing with Google Fit, you understand that myFHR™ uses Google Fit's standard security protocols, as provided by Google, to protect the privacy and security of your information as it is transmitted to and stored by Google Fit on your device. CareEvolution has no control over Google's security protocols. In addition, no method of transmission over the Internet, or method of electronic storage, is 100% secure. Therefore, we cannot guarantee the privacy and security of your information. You agree that you are solely responsible for the privacy and security of any information which you choose to share with Google Fit.
